

Small Ensembles

Small ensembles are perfect for someone looking for the benefits of small group collaboration instead of a larger choir format. Each ensemble is built "new" for every liturgy, composed of 3-6 people who sing and/or play an instrument. Typically each ensemble will have at minimum 2 vocalists (of different voice parts) and 1-2 instrumentalists. Small groups rehearse immediately before their scheduled liturgy and do not meet during the week. Just like the Schola Cantorum, the frequency of participation is flexible and can be as often or infrequent as your schedule allows.
